

Smarter training for
tomorrow's best pilots

Next-generation theory

Learning to fly starts on the ground. For that reason, student pilots need the best possible theory training. It's the foundation of their future career.

Available on any device, Padpilot materials deliver engaging, easy to understand TK content for students and, for training providers, a range of supporting resources including: classroom presentations, eLearning, trackable tests and our new smart AI Assistant, The Padpilot Briefing Room.

Welcome to Padpilot. We're here to enable new heights in ground training.

Padpilot books

Aeroplane Theory

- ATPL(A) The ultimate books for commercial pilot training.
- PPL(A) Easy-to-understand for a flying start.
- CBIR(A) Theory for the competency-based IR.
- Foundation Essential basics for professional training.

Helicopter Theory

- ATPL(H) Helicopter-specific content for commercial rotary pilots.
- PPL(H) Heli theory for private pilots & modular training.

Smarter foundations

“Gaining a strong foundation of knowledge during initial training sets the stage for lifelong learning throughout a pilot’s career.”

Nathan Gray, CEO, Padpilot

Resources for ATOs

Padpilot delivers a complete solution for ground school, used by leading pilot training providers worldwide.

Students

Theory eBooks: clear, interactive content

Study Aids: built-in summaries & quizzes

Padpilot Briefing Room: smart AI assistance

ATPL eLearning: microlearning modules

Instructors

Theory eBooks: reference content

Trackable Tests: progress & theory release tests

Classroom Presentations: ready to use slide sets

Padpilot Briefing Room: smart AI planning tool

Management

KSA Package: training materials for Area 100

Learning Management: schedule tests & reports

ATO Support: training & compliance library

Client Services: technical & customer care

“ Theory training has to be engaging and interesting for our students to be successful in their flying career. Padpilot provides the most up to date, interactive and relevant courseware available, helping us achieve this goal. ”

Michael Boulton, CTKI
